

Acid Stain COLOR CHART

Spanish Gold

Spice Nut

Harvest Gold

Mission Brown

Terra Cotta

Black

Jade

Pacific Blue

Note: Colors are based on grey concrete with stain applied at full strength, no dilution with two applications, and is sealed with a penetrating color enhancing sealer. SureCrete recommends the use of SCR (Super Concrete Renovator) for surface preparation preceding the application of Eco-Stain. Color samples on this chart represent the color of finish as closely as possible. Color variations may occur due to differences in cement, aggregates and methods of application.
